VINTAGE

A remarkable Wrattobully vintage with great ripening conditions produced grapes with intense colour, flavour and tannin. The cool nights retained natural acidity and the warm days provided perfect ripening.

This vintage is one for the history books.

WINEMAKING

This block was harvested and pressed off skins after four days in the winery to integrate flavour and aromatics. The resulting juice was cold settled clear before being inoculated with an aromatic yeast strain to enhance aromatic profile of strawberries and cream, guava and wild raspberry notes. Following ferment the wine spent two months on fine yeast lees to promote flavour integration and build mid palate texture before being stabilised and prepared for bottling.

VINEYARD

Wrattobully is located in the Limestone Coast wine zone. The prominent viticultural feature of the area is the series of ancient beach ridges and dunes which run roughly north-south through the area. These ridges are made up of soft crumbly limestone which weathers to produce the red and brown Terra Rossa clay loam soils so highly prized for grape growing. The ridges and dunes have elevations of up to 30m compared with the neighbouring regions to the south with a Terra Rossa 'high' of less than 5m. The extra elevation on the Wrattobully dunes produce the advantage of cold air drainage which reduces the risk of frost during the growing season.
